

Monday, June 18

---

---

<b>Keynote: 9:30</b>	
Preston McAfee	The Economics of Search
Coffee break	10:30-11:00
<b>New Trends: 11:00</b>	
Vanessa Murdock Kenth Engo-Monsen Harold Paredes-Frigolett Vassilis Plachouras	Any input, any output, anywhere (search) Search hitting the mobile Agent-Mediated Communication for Online Social Networking Temporal aspects of Web search
Lunch	13:00-14:30
<b>Distributed Web Retrieval: 14:30</b>	
Flavio Junqueira Fabrizio Silvestri Stefano Leonardi	On the Design of Fully-Distributed Search Engines Low-fat Search Engines with Collection-Selection oriented Caching Trusted Metric Estimation for P2P Networks
Coffee break	16:00-16:30
<b>Link Analysis: 16:30</b>	
Debora Donato Geoffrey Canright Devdatt Dubhashi	Efficient and Decentralized PageRank Approximation in P2P Networks with Malicious Agents Web link analysis: how to live with sinks Incremental and Localized Computation of Personalized Page Rank

Tuesday, June 19

---

---

<b>Web Algorithmics I: 9:30</b>	
Ronny Lempel Paolo Boldi Paolo Ferragina	Cubes equal (Faceted Search) squared: OLAP-like cubing by a recursive composition of faceted search LAW and the Web The Compressed Permuterm Index
Coffee break	11:00-11:30
<b>Web Algorithmics II: 11:30</b>	
Andras Benczur Marco Pellegrini Ravi Kumar	Spectral clustering in large networks Extraction and classification of dense communities in the Web Page-level template detection
Lunch	13:00-14:30
<b>Keynote: 14:30</b>	
Thomas Hofmann	<b>Cancelled</b>
Sebastiano Vigna Gleb Skobeltsyn	Query-Driven Indexing for P2P Text Retrieval
Coffee break	15:30-16:00
<b>Open Session: 16:00</b>	
	Informal presentations

*Wednesday, June 20*

---

---

**Adding the Structure: 9:30**

Holger Bast	The CompleteSearch Engine: Combined Full-Text and Data Base Search at High Speed
Mariano Consens	Searching the emerging structure of Web 2.0 (microformats, machine tags, semantic mashups)
Mounia Lalmas	Beyond XML Retrieval
Coffee break	11:00-11:30

---

---

**Adding the Semantics: 11:30**

Massi Ciaramita	Exploring the representation gap beyond bags-of-words: a case study in financial news filtering
Giuseppe Attardi	Natural Language Search: hype or reality?
Peter Mika	Making the Web searchable, or the future of Web Search.
Lunch	13:00-14:30
